

**GOLDEN AGE EXPLORATION LTD.**  
QUARTERLY REPORT  
for the six months ended August 31, 2023

**MANAGEMENT DISCUSSION AND ANALYSIS**

1.1 Date of Report: September 13, 2023

*The following management's discussion and analysis should be read together with the financial statements and accompanying notes for the six months ended August 31, 2023 and related notes hereto, which are prepared in accordance with International Financial Reporting Standards ("IFRS"). All amounts are stated in Canadian dollars unless otherwise indicated.*

*This management discussion and analysis includes certain statements that may be "forward-looking statements". Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, continued availability of capital and financing and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements.*

1.2 Overall Performance

**Nature of Business and Overall Performance**

The Company was incorporated under the *Business Corporations Act* (British Columbia) on February 24, 2021.

The principal business of the Company is the acquisition, exploration and, if warranted, development of mineral resource properties. The Company filed a final prospectus with the BSCS, ASC and OSC (the "Regulatory Authorities") on July 15, 2022, which was received on July 18, 2022. The Company filed an amended and restated prospectus with the Regulatory Authorities on October 17, 2022, which was received on October 17, 2022 and became a reporting issuer in British Columbia, Alberta and Ontario. The Company was listed for trading on January 12, 2023, completed its Initial Public Offering (the "IPO") on January 13, 2023 and commenced trading on January 16, 2023 under the trading symbol "GDN".

The Company issued 3,000,000 common shares (the "IPO Shares") at a price of \$0.10 per IPO Share. The proceeds from the IPO, after Agent's commission of \$30,000, the corporate finance fee paid to the Agent was \$22,500 (\$10,000 paid by the issuance of 100,000 common shares of the Company), Agent's broker warrants valued at \$16,130 and other offering expenses of \$30,944 was \$200,426. The Agent's broker warrants entitle the Agent to purchase up to 300,000 common shares at \$0.10 per share until January 13, 2025.

The Company holds an option to acquire, in stages, up to an 80% undivided interest in the Magic property, an early-stage mineral exploration prospect which encompasses four mineral tenures totalling 1,294 hectares located south of Nazko, in the Chilcotin District of central British Columbia approximately 75 kilometres southwest of Quesnel, B.C. (the "Magic Property"), in exchange for a combination of cash payments, common shares and exploration expenditures as follows.

1.2 Overall Performance – (cont'd)

**Nature of Business and Overall Performance – (cont'd)**

Stage	Interest Earned	Cash Payment	Number of Common Shares	Exploration Expenditures
1	50.1%	\$7,500 on or before July 9, 2021 (paid)	200,000 Common Shares on or before July 9, 2021 (issued)	\$46,487 on or before September 30, 2022 (completed)
		\$5,000 on or before December 9, 2023	300,000 Common Shares on or before December 9, 2024	\$250,000 on or before December 9, 2024
2	Additional 14.9% (65% total)	\$5,000 on or before December 9, 2025	500,000 Common Shares on or before December 9, 2025	\$500,000 on or before December 9, 2024
3	Additional 15% (80% total)	\$5,000 on or before December 9, 2026	1,000,000 Common Shares on or before December 9, 2026	\$1,000,000 on or before December 9, 2025
<b>TOTAL</b>	<b>80%</b>	<b>\$22,500</b>	<b>2,000,000 shares</b>	<b>\$1,796,487</b>

The Company commenced Phase 1 of the recommended exploration in June 2023 and completed the MMI soil geochemical sampling program and is awaiting the geological review of that work prior to continuing with further Phase 1 work. Phase 1 consists of a MMI soil geochemical sampling program of approximately 287 samples over seven lines at 50-meter sample spacing and a ground induced polarization survey. The budgeted cost of Phase 1 is \$111,660. If warranted by the results of Phase 1 and subject to available financing, a follow up Phase 2 program consisting of 2,000 meters of diamond drilling of coincident MMI soil geochemistry anomalies and induced polarization geophysical anomalies from Phase 1 is recommended in the Magic Property Technical Report at an estimated cost of \$522,500. There are no assurances that such capital will be available to the Company on commercially reasonable terms or at all. If, based on the results from Phase 1, the Company decides not to proceed with Phase 2 of the exploration program, the Company intends to seek out one or more new mineral resource properties for acquisition and exploration. There are no assurances that the Company will proceed with the Phase 2 exploration program, which is contingent upon favourable results from Phase 1.

While the Company intends to spend the net proceeds from the IPO as stated above, there may be circumstances where, for sound business reasons, funds may be re-allocated at the discretion of the Board or management.

### 1.4 Results of Operations

The Company has not generated any revenues to date and the composition of the net loss during the six months ended August 31, 2023 as compared to the six months ended August 31, 2022 were significantly different as the Company was actively engaged in preparing, filing and obtaining a receipt for its IPO and seeking a listing of its common shares on the CSE in the six months ended August 31, 2022 versus the six months ended August 31, 2023. Consequently, the Company's filing fees and legal fees were significantly higher for the six months ended August 31, 2022 than for the six months ended August 31, 2023. Consulting fees increased significantly during the six months ended August 31, 2023 as compared to the six months ended August 31, 2022 as the Company was charged \$2,500 per month by a director Tibor Gajdics, for chairing its Advisory Committee, commencing March 1, 2023, primarily responsible for finding and securing other projects of merit for the Company. Management fees also increased during the six month period ended May 31, 2023, as the Company's President's monthly fee increased by \$1,000 per month to \$2,500 per month. The other significant increase was for stock-based compensation, as the stock options granted became effective once the Company was listed in January 2023. Consequently there was compensation expense recorded in the six months ended August 31, 2023, whereas no expense was recorded during the six months ended August 31, 2022.

The Company's cash flow usage was significantly lower during the six months ended August 31, 2023 as compared to the six months ended August 31, 2022 due to the costs of preparing, filing and obtaining a receipt for the Prospectus and conditional approval for listing on the CSE during the 2022 period. The 2023 period did not include any of these Prospectus and listing costs and were primarily related to the administration of the public company along with commencement of its exploration project.

The Company's significant project is the Magic Property detailed in section 1.2.

### 1.5 Summary of Quarterly Results

The following is a summary of the Company's financial results for eight most recently completed quarters:

	Q1 Aug 31, 2023	Q1 May 31, 2023	Q4 Feb. 28, 2023	Q3 Nov. 30, 2022	Q2 Aug. 31, 2022	Q1 May 31, 2022	Q4 Feb. 28, 2022	Q3 Nov. 30, 2021
Total Revenue	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Loss and Comprehensive Loss	\$ 39,992	\$ 39,672	\$ 72,677	\$ 26,848	\$ 26,767	\$ 59,078	\$ 46,510	\$ 6,289
Basic and diluted loss per common share	\$ 0.00	\$ 0.00	\$ 0.01	\$ 0.00	\$ 0.00	\$ 0.01	\$ 0.01	\$ 0.00
Weighted Average Number of Common Shares Outstanding	10,300,001	10,300,001	7,590,686	7,200,001	7,200,001	7,200,001	4,446,028	4,281,320

The Company reported a net loss of \$39,672 for the three months ended August 31, 2023 as compared to a net loss of \$26,767 for the corresponding three-month period ended August 31, 2022 due primarily to costs related to completing its IPO in the 2022 period. These differences were not comparable as the costs incurred in 2022 related to the going public phase of the Company whereas the costs in 2023 were related to normal business operations.

## 1.6 Liquidity

The Company had total assets of \$257,823 as at August 31, 2023, consisting of cash and cash equivalents of \$179,004, amounts receivable of \$6,474 and exploration and evaluation assets of \$72,345. Also, at August 31, 2023, the Company had a working capital surplus of \$110,363. The Company has adequate liquidity to meet its current plans. Its cash working capital requirements for the next twelve months will be approximately \$150,000 or less.

## 1.7 Capital Resources

The capital resources of the Company are primarily its cash and cash equivalents of \$179,004 at August 31, 2023. The Company has committed funds for expenditures on the Magic Property during the next twelve months which are expected to be at approximately no greater than \$80,000. The Company has no other commitments during the next twelve months other than its general and administrative expenses. If warranted by the results of Phase 1, the Company will seek to carry out Phase 2 of the recommended exploration program on the Magic Property at an estimated cost of \$522,500. However, the funds will not be sufficient to carry out Phase 2 or any portion thereof and the Company will need to raise additional capital to complete Phase 2 of the recommended exploration program. There are no assurances that such capital will be available to the Company on commercially reasonable terms or at all. If, based on the results from Phase 1, the Company decides not to proceed with Phase 2 of the exploration program, the Company intends to seek out one or more new mineral resource properties for acquisition and exploration. There are no assurances that the Company will proceed with the Phase 2 exploration program, which is contingent upon favorable results from Phase 1. While the Company intends to spend the net proceeds from the IPO as stated in the IPO, there may be circumstances where, for sound business reasons, funds may be re-allocated at the discretion of the Board or management.

At August 31, 2023 the Company had no other commitments for expenditures other than the current accounts payables and accrued liabilities totalling approximately \$75,000.

## 1.8 Off Balance Sheet Arrangements

There are no off-balance sheet arrangements to which the Company is committed.

## 1.9 Transactions with Related Parties

On April 18, 2022, the Company granted stock options to its directors and officers to purchase up to a total of 800,000 common shares at \$0.10 per common share exercisable until five years from the date of listing on the CSE and are subject to vesting as to 25% on the date of listing and 25% every three months thereafter until fully vested. The fair value of \$28,760 was recorded during the six months ended August 31, 2023 with respect to vested options.

During the six months ended August 31, 2023, a private company controlled by the Chief Executive Officer of the Company charged a total of \$15,000, plus GST, in management fees to the Company. Total fees due to such non-arm's length company, and included in accounts payables and accrued liabilities at August 31, 2023 was \$42,525 (including GST). On August 31, 2022, the company agreed to defer payment of \$10,000 of its total outstanding fees until January 1, 2024, which fees are non-interest bearing and unsecured. Also during the six months ended August 31, 2023, a spouse of a director of the Company was paid a total of \$700 for website development. During the six months ended August 31, 2023, a director of the Company charged a total of \$15,000, plus GST, in consulting fees to the Company. Total fees due to such non-arm's length party, and included in accounts payables and accrued liabilities at August 31, 2023 was \$15,750 (including GST).

1.13 Changes in Accounting Policies including Initial Adoption

There were no new accounting policies that the Company has adopted during the six months ended August, 2023.

1.14 Financial Instruments and Other Instruments

The Company's financial instruments consist of cash and cash equivalents, amounts receivable and accounts payable and accrued liabilities.

The Company's financial instruments are exposed to the following risks:

*Credit Risk*

The Company's exposure to credit risk is the risk of illiquidity of cash and cash equivalents amounting to \$179,004 at August 31, 2023. As the Company's policy is to limit cash holdings to instruments issued by major Canadian banks, or investments of equivalent or better quality, the credit risk is considered by management to be negligible.

The Company also has exposure to credit risk with regards to its amounts receivable at August 31, 2023 which included \$5,828 due from the Canadian government. The Company closely monitors this risk and believes the risk is not significant.

*Liquidity Risk*

Liquidity risk is the risk that the Company will not be able to pay financial instrument liabilities as they come due. The Company's only liquidity risk from financial instruments is its need to meet operating accounts payable requirements. The Company has sufficient cash balances, including funds from its IPO to meet these needs as of and up to February 28, 2024. See also Item 1.6 "Liquidity" above.

*Foreign Exchange Risk*

The Company has virtually no foreign exchange risk as all its activities are carried out in Canada and all its financial assets and liabilities are denominated in Canadian dollars.

1.14 Financial Instruments and Other Instruments – (cont'd)

*Interest Rate Risk*

The Company has no exposure to interest rate risk on its cash and cash equivalents. At August 31, 2023, the Company maintained all of its cash balance on deposit in a chequing account and in a GIC (\$170,000 at August 31, 2023), both with a major Canadian bank.

*Price Risk*

The Company is not exposed to price risk.

The carrying value of cash and cash equivalents, amounts receivable and accounts payable and accrued liabilities approximate their fair values due to the short maturity of those instruments. There is no income, expenses, gains or losses associated with the financial instruments.
